

You will like it in Moldova !

With Orange you will enjoy more your stay in Moldova:

- you can use your phone with GSM roaming service
- you can purchase or offer as a present an Orange PrePay pack from any Orange shop or Kiosk chains

Orange Moldova is a subsidiary of France Telecom Orange group. The company has been providing mobile service for more than 10 years in Moldova and serves more than 2 millions of clients.

Orange is considered the most extended and popular mobile service in Moldova. Orange Moldova works in respect of International, European and Orange quality standards.

Tarrifs are defined so that roamers and local market can enjoy services at a reasonable price.

How to connect with your phone from your own country?

Please make sure if you have activated the roaming option with your home network. Once in Moldova, just select the Orange network:

In your phone's menu, select the "Manual Network Selection" and then choose "Orange MD", "Voxtel" or "25901".

Internet access is available everywhere under Orange coverage

You can use internet or wap services for browsing or retrieving your mails and instant messages. You can also send images, sounds and texts from your mobile phone using MMS.

Orange network supports CSD, GPRS and high speed EDGE, and 3G data transfer. See the GPRS & 3G roaming partners list in annex.

The card prolongs the validity period of Orange number with	12 months	11 months	10 months	6 months	3 months

All prices include all Moldovan taxes

A phone purchased abroad, could be locked on home operator with "simlock". In this case, it would not work with any other network. To unlock the phone, just contact your operator or an authorized shop able to remove the lock. Operators usually allow it for free after a few months of subscriptions.

All phones purchased in Orange shops are compatible with GSM networks except when clearly stated.
